Botanic Gardens Conservation International Education Review

October 2009

Index to issues 21-27 and Volumes 1-4

Organisations, people, meetings, subjects,
plants, animals and places

Article authors and guest editors

English-language version

Conventions used

The **titles** of books, videos, slide packs and other publishable resources are shown in **bold**.

Country references: As *Roots* has world-wide scope, this index contains references to institutions throughout the world. To aid the location of entries on a country-by-country basis, all the index entries for institutions are repeated under a heading for their parent country. (E.g. 'Kew RBG' as its own main entry in the index, and also an entry under the heading 'UK'.)

References are shown as follows. Issues 21–27 only involve an issue number and a page number. So a reference within issues 21–27 is shown with the issue number in brackets; for example

Abdul-Kareem, Mohammed (25) 16

Subsequent issues in Volumes 1 to 4 have a volume number, an issue number and a page number. So a reference in Volumes 1–4 is shown with the volume number without brackets and the issue number (1 or 2) in brackets, for example:

A Goodman consultancy 3 (2) 35

Abbreviations used: BG = Botanic(al) Garden(s) RBG = Royal Botanic(al) Garden(s)

Index to article authors and guest editors

This section of the index lists article authors and Roots guest editors. In a few cases an organization instead of a personal author's name has been given for an article; in these cases the organization has been listed. Authors of contact persons for courses or information and the Contact Board are not listed.
