

**Raising Standards Through Inquiry:**  
**Professional Development in the Natural Environment**

**Poster Session Guidelines**

- There are two poster sessions during the conference. Please check the programme for when you will be presenting your poster.
- On arrival at the Conference please ask at the Registration Desk for information on setting up your poster board.
- Delegates will be expected to present their posters during the allotted time session and be available to answer questions and provide further information.
- A poster board will be provided for you together with the tools to mount your display.
- Poster Board dimensions = A1 size. 594 width X 841 height. It is recommended that a poster size of up to A1 portrait orientation be used.
- Full use of colour, bold and larger typefaces is encouraged and all sections of the poster should be clearly legible from a distance of 1 meter.
- The use of illustrative material, photographs etc is recommended.
- The design should be thought out so as to give quick impact and attract immediate interest. Don't feel you have to spend lots of money on producing your poster. Home-made posters are just as welcome as those that have been professionally designed and printed; clarity of the message is the most important point.
- Explanatory handouts can be useful to fill in more detail.
