

M.M.Gryshko National Botanical Garden was founded in September 1935 in the historical part of Kyiv under the name "Zvirynets", on an area of 130 hectares.

*"Lilac Garden" - one of the most visited corners of the Garden -has long been a kind of business card*

*Currently the collection of lilacs in NBG has 21 species (out of 28 existing), about 130 varieties and more than 90 ornamental hybrids of NBG selection.*

Beginning in 1944, botanical and geographical areas were created in the Botanical Garden: "Far East"; "Central Asia"; "Caucasus"; "Altai and Western Siberia"; "Crimea"; "Steppes of Ukraine"; "Ukrainian Carpathian Mountains"; "Forests of the plain part of Ukraine".

**Coniferous forest belt in the Carpathians area**

**Beech forest belt in the Caucasus area**

**Tamarix blooms in the Crimea**

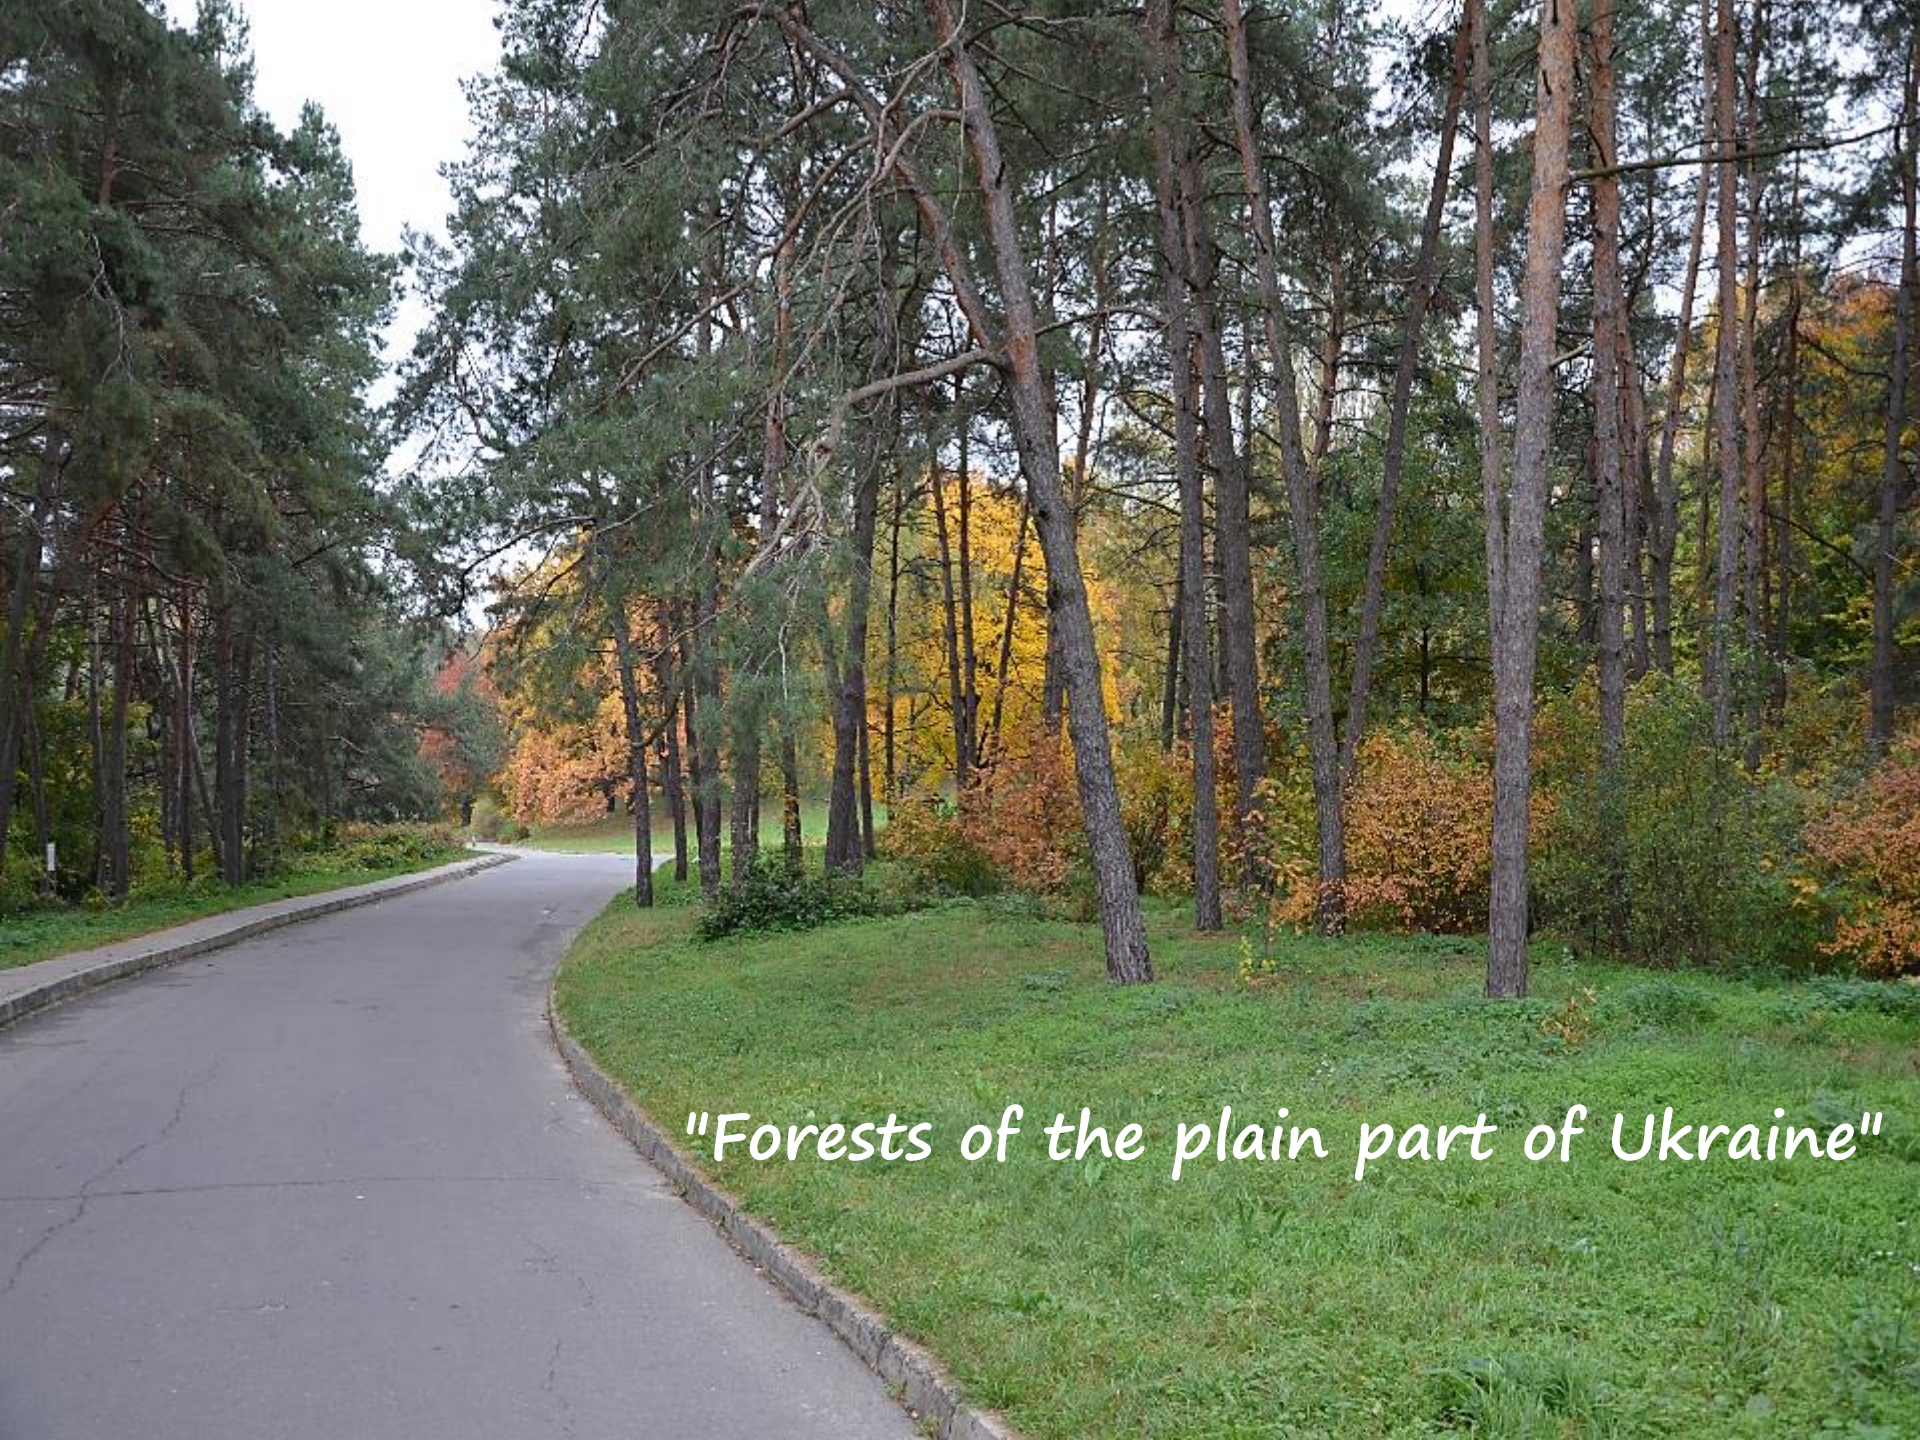

**Meadow-steppe weeds in the area "Steppes of Ukraine"**
